

Nieke Koek

www.niekekoek.nl

Nieke Koek is fascinated by what the body undergoes when it is moving. She plays with our observations when she shows a simple turn of the body, the pronunciation of a word or the different faces hidden in a sneeze.

Nieke examines physical movements in great detail. She films everyday movements and slows it down or enlarges it to be able to display them.

She creates work that gives the audience the opportunity to study these daily moments in an un-everyday way.

The observer can watch fleeting moments with greater attention and by doing so is given the awareness of the complexity of our body and our actions.

Nieke Koek is an interdisciplinary artist.

She creates performances, installations and sculptures.
